message	<p>Icchodo has rich historical ties to Karuizawa as a long- established Karuizawa bori (traditional carving craftwork in Karuizawa) shop since its opening in 1927. We Icchodo has supplied the Karuizawa bori furniture to Mampei hotel and well known cottages that represent Japanese classic style accommodations. Our workshop is located in inner room of the shop on the previous Karuizawa Ginza street, and has merchandised the furniture and other accessories that are along with current lifestyle with traditions at the same time. Originally Karuizawa bori began to make furniture for foreigners' villas who could hardly stand the humid summer of Tokyo and Yokohama then came to Karuizawa. As a fusion of Japanese craftsmanship and Western preference, the unique feel furniture was created that suits for both Japanese and Wester style rooms. Our masters combined Western new genre furniture with Japanese traditional craftsmen work, and have developed new local culture in furniture industry for generations. We retain the innovation spirit from our masters and their traditional techniques, and will continue to provide the beloved products of Icchodo throughout times.</p>
