Description	We make four kinds of rice in Saku City, Nagano Prefecture. The varieties are Koshihikari, Kazesayaka, Akitakomachi, and Milky Queen. Saku City is located on a plateau at an altitude of 700 m, and the water of the Chikuma River, clay soil, and clear air are the best environment for rice cultivation. And it is an integrated production of the whole process from rice planting to rice milling shipment. Rice directly from the production area.
